

Fareed Dubiure

Low Rise 8, Northcross Road, Ithaca, NY
Cell: (607) 339-8539, ftd9@cornell.edu, [LinkedIn](#), [Portfolio](#)

Education

Cornell University, College of Engineering - Ithaca, NY
Bachelor of Science in Biomedical Engineering, Expected May 2028
Molecular & Cellular Systems Concentration

Relevant Coursework: Molecular & Cellular Biology, Organic Chemistry, Biomolecular Thermodynamics, Investigative Biology, Biomedical Transport Phenomena, Physiology of Human Health & diseases.

Research Experience & Academic Projects

Computational Biology Research Project (Self-Initiated)

Bioinformatics Research Project - November 2025

- Analyzed high-throughput microarray data (GSE16873) to identify differentially expressed genes across early-stage breast cancer progression
- Identified ACTA2 as a consistently downregulated gene across disease stages, suggesting early myoepithelial and structural deterioration
- Performed data preprocessing, normalization, and statistical analysis using Python
- Produced a full scientific manuscript with literature-backed interpretation of gene expression trends

Poster Presentation

Investigative Biology Course - November 2025

- Designed and conducted an experimental study investigating the effect of fruit waste on algal growth
- Collected and analyzed algal growth data to quantify the impact of organic waste substrates on biological growth rates
- Presented findings through a scientific poster to peers and faculty, emphasizing experimental design and interpretation

Biology Laboratory Assistant

Saint James' Seminary and Senior High School - June 2022 – November 2023

- Prepared reagents and performed standard wet-lab protocols including solution preparation, pipetting, and sterile handling techniques
- Maintained laboratory safety standards and ensured proper cleanup and storage of materials

- Assisted and supervised junior students during laboratory exercises, verifying procedural accuracy

Technical Skills

Laboratory Techniques: Microscopy, Sterile technique, Pipetting, Titrations, PCR, ELISA, Gel electrophoresis, Spectrophotometry, Solution preparation.

Data Analysis & Computing: Python, R (basic), MATLAB.

Languages: English (Native), French (Intermediate, ~A2)

Teaching & Academic Support

Math Tutor, April 2024 – August 2024

Afex Hub - Ghana

- Tutored students in SAT mathematics, developing customized practice materials
- Reviewed assessments and clarified conceptual misunderstandings through targeted instruction

Campus & Professional Experience

Student Program Assistant, August 2025 – April 2026

Tatkon Center, Cornell University

- Support daily operations of a student resource center through front desk management
- Assist with planning and implementation of workshops and peer engagement initiatives
- Provide guidance to students navigating academic and campus resources

Student Office Manager, May 2026 – August 2026

Conference & Events Services, Cornell University

- Oversee the planning and execution of their conferences by providing checklists and agendas prior to the conference arrival.
- Manage shared email address and provide information to people in need as directed.
- Serve as contact for conference facilitators and participants; provide necessary information pertaining to changes.

Affiliations & Memberships

- American Society for Biochemistry and Molecular Biology (ASBMB)
- Food Recovery Network
- The Wildlife Society
